2020/5/11

The screenshot shows a Windows desktop environment. In the background, a web browser window is open to the URL `sslvpn.yzu.edu.tw/global-protect/getsoftwarepage.esp`. The browser title is "GlobalProtect Portal".

In the foreground, a "GlobalProtect Setup Wizard" dialog box is displayed. The dialog box has a title bar with "GlobalProtect" and the Palo Alto Networks logo. The main text reads: "Welcome to the GlobalProtect Setup Wizard". Below this, it states: "The installer will guide you through the steps required to install GlobalProtect v5.1.3 on your computer." A warning message follows: "WARNING: This computer program is protected by copyright law and international treaties. Unauthorized duplication or distribution of this program, or any portion of it, may result in severe civil or criminal penalties, and will be prosecuted to the maximum extent possible under the law." At the bottom of the dialog box, there are three buttons: "Cancel", "< Back", and "Next >". The "Next >" button is highlighted with a red circle.

Below the dialog box, the text "Mac OS needs to download and install Mac 32/64 bit GlobalProtect agent." is visible.

The Windows taskbar at the bottom shows the "GlobalProtect64.msi" file icon, the Start button, and several application icons. The system tray on the right shows the date and time: "下午 06:44 2020/5/11".
