

CALL FOR PAPERS

2026 INTERNATIONAL CONFERENCE ON FUTURE HEALTHCARE AND ECONOMIC DEVELOPMENT

The Digital Transformation of Healthcare: Hospitals at Home and Patient Monitoring

The 2026 forum focuses on "Home-to-Hospital" integration, leveraging Taiwan's smart healthcare expertise to foster global biomedical collaboration. We are now CALLING FOR PAPERS—join us to shape the future of connected care.

TOPICS FOR THE PAPERS ARE AS FOLLOWS

AI & Advanced Data Analytics

Focuses on Machine Learning in eHealth, precision medicine, drug discovery, and the implementation of Generative AI.

Medical Devices, Wearable Technology & Security

Includes IoT integration, fog/edge computing for implantable devices, and ensuring medical device safety and privacy.

Telemedicine & Specialized Clinical Applications

Covers specialized telehealth in Cardiology, Obstetrician & Gynecology, and virtual rehabilitation services.

SUBMISSION DEADLINE:
JULY 31, 2026

Ensure all paper submissions are finalized and uploaded through the conference portal by this date.

Explore 30+ Detailed Topics:
