【Updates to User Login Interface】

1. Updates to the Login Interface

All users (administrators, instructors, and students) must log in to Turnitin via:
<https://home.turnitin.com>

The image shows a screenshot of the Turnitin login interface. At the top, there is a light blue notification box with an information icon and the text: "We've updated the Turnitin sign-in experience. Continue using your existing credentials to sign-in." Below this is the "Log in" heading. There are two input fields: "Email" and "Password". The "Password" field has a toggle icon (an eye) to its right. Below the input fields is a dark teal "Log In" button. Underneath the button are three links: "Forgot your email?", "Forgot your password?", and "Create a new student profile". At the bottom, there is a horizontal line with "or" in the center. Below this line are two buttons: "Sign in with Google" (with the Google logo) and "Sign in with Clever" (with the Clever logo).

2.

- Only accounts with Library Administrator privileges are required to enter a one-time verification code (OTP) when logging in.
- **Instructor and student accounts can continue to log in directly by default.**
- No changes have been made to the way instructors and students use the system after login.

Enter login code

A unique code has been sent to the email provided.
Enter the code here to log in.

Enter code

Submit

Didn't receive a code? [Request a new code.](#)

By signing in, you agree to Turnitin's [Terms of Service](#) and [Privacy Policy](#).

3. Role Switching for Administrator Accounts

- Users with administrator privileges will be directed to the Administrator Dashboard by default after login.
- To access the Instructor or Student view, click the profile menu in the lower-left corner and switch roles.

4. MFA (Multi-Factor Authentication) is disabled by default for instructor and student accounts. If needed, it can be enabled by the Library Administrator. Once enabled, the setting will apply to all instructor and student accounts within the institution.

The screenshot shows the Turnitin user interface. On the left is a sidebar with navigation links: Account List, Dashboard, Users (highlighted), Statistics, Integrations, Settings, Manage Submissions, Anonymous Marking, Notifications, and Help and Support. The main content area has tabs for Administrators (2), Instructors, Students, and Multi-factor authentication (selected). Below the tabs, it says "Choose which roles must use multi-factor authentication." and "Require users to enter a verification code in addition to their email and password." A yellow warning box states: "Before enabling multi-factor authentication, confirm that users have valid email addresses and can access their email accounts. Users without email access will be unable to sign in." Under the heading "Require multi-factor authentication for", there are three radio button options: "No users" (selected), "Instructors", and "All users". Each option has a descriptive text below it.

2.How Instructors Generate a Course

Enrollment Key

2-1. After enabling "Allow students to self-enroll in this course" and clicking Submit, the system will automatically generate an enrollment key valid for 14 days. **Please do not share the key publicly or with unauthorized user.**

NOW VIEWING: [HOME](#) > CREATE CLASS

Create a new class

Enter a name for the new class and choose whether students can enroll themselves in it.

Class settings

* Indicates a required field

- * Class type: Standard
- * Class name:
- * Subject area(s): Select subject(s)
- * Student level(s): Select student level(s)
- Class start date: 17-Aug-2026
- * Class end date: 17-Aug-2027
- ☐ Allow students to enroll themselves in this class [?](#)

Share Enrollment Key

Class: TEST
Class ID:

ACTIVE ENROLLMENT KEY

Do not share publicly or distribute to unauthorized individuals.

This key expires in 14 days.

[i](#) Students can join this class using the enrollment key generated and shared with them. Only share the key with students who should have access.

[↻](#) Generate new key [Done](#)

2-2 For existing courses, students can no longer join using the previous course ID and enrollment password. Instructors must click "Edit" and enable "Allow students to self-enroll in this course."
